The MCDSARE by IFIASA conferences is equally opened to researchers and professors, educational policies makers, strategists, scientists, university postgraduate and undergraduate engineering and students.

About IFIASA Virtual Conference

If you are interested in idea of Virtual Conference, we propose some benefits, which such event certainly includes

Most people have an experience that some of the most valuable discussions at conferences occur not from the podium but in the hallway.

A Virtual Conference is a way to 'hallway conversations' where most of the conversations take place in a public dialogue that is created for each article separately. Only the conference participants have access to the chat-rooms. This is the best way to ascertain individual viewpoints and to discuss the submissions. If you like the sound of one topic you can simply join the discussion.

Presentations

The following presentation formats will be possible at the conference:

Oral presentation - Take an advantage of oral presentation of your paper/ research on site and get the first hand remarks and comments from the audience. Encourage a live discussion regarding the presented topic and network with other researchers and academics.

Video presentation – Participations who are not able to attend the conference in person may opt for this presenting format. Participants will watch either your recorded presentation or will be following it through a live stream. They will be able to ask the questions either in a real time through the internet connection or may fill in the reflection forms which we will be mailing back to you, if requested.

Equipment that will be provided by the conference and setup in all presentation rooms :
Laptop, LCD projector, White board, Microphone and sound system, Internet access.
